COMMUNITY CALENDAR

Filing deadline for BV School Board is May 7

The filing period for two openings on the Brandon Valley Board of Education are open now through 5 p.m. Friday, May 7.

The terms of longtime board member Gregg Ode and Nick Scott, who was appointed last summer to fill the chair vacated by Dan Klumper are expiring.

Both positions are three-year terms.

Interested candidates must file their signed petition by 5 p.m. Friday, May 7. If more than two candidates file, an election will be held on Tuesday, June 15.

To learn more, call the BVSD Central Office at 582-2049.

April needs at the BAFP

April needs at the Brandon Area Food Pantry are hot cocoa mix, bottled juices, sugar (4 lb. bags), flour (5 lb. bags), Dinty Moore Beef Stew, toothpaste and small bags of dog and cat food.

Due to recent large-scale donations, the BAFP has no need for canned vegetables (i.e., peas, corn, carrots, all varieties of beans) and soups, both cream and other varieties.

In respect to COVID-19, Pantry clients will receive items that have been pre-bagged by BAFP volunteers. To make appointments for either pickups or donations, call 582-7001. The BAFP is open from 4-6 p.m. Tuesdays and Thursdays.

BAFP executive director Linda Weber asks groups staging a food drive to contact the Pantry prior to dropping off donations.

Used eye glasses and hearing aids for the Brandon Lions Club may also be dropped off at the BAFP.

BV Band Parents revive Turkey Supper

After taking a one-year hiatus from a long-standing tradition last year, the Brandon Valley Band Parents will serve up the 57th Annual Band Supper and Pops Concert from 4-6:30 p.m. Saturday, May 1. This year's event, however, will have different twist. It will be a "grab and go supper", where diners will enter and exit through the south BVHS Commons doors to pick up meals prepared by Tony's Catering. Turkey

Ask the Motor Medics®
Automotive Advice from The Under the Hood® Show

Dear Motor Medics,

I am having a problem with my lights on my 2000 Ford Taurus. Both the front and rear lights have water in them. The rear looks like a bathroom mirror after a hot shower on both sides and the front has water collected towards the bottom of the driver side headlight. When the weather is dry for long periods they will clear up, but if I wash the car or it rains once they fog right back up. The bulbs themselves seem to be working ok and this has gone on for a couple of years. What can I do to fix this? I just don't like the way it looks.

Pat in Larchwood Iowa

Dear Pat,

Many vehicles have this issue. The moisture comes from the seal around the plastic lens leaking where it is bonded to the inside light reflector housing. During hot sunny days, the heat generated by the sun will break down the seal and moisture will occur. In some cases, the lens will separate completely from the reflector. We have seen people try many things to repair their existing lights but usually the most effective fix is to replace the assembly. Check several places for the best deal. Auto recycling facilities, the dealer, and auto parts stores usually carry the assemblies. Once you find a good light at a reasonable cost, you could possibly install them yourself. You will want to have the front aimed by a professional though.

Take care, The Motor Medics

Dear Motor Medics,

I have a 2001 Ford F150, and I would like to know more about using synthetic oils to extend the life of the truck and increase fuel mileage. Am I on the right track here? Can I expect to see a big increase in mileage if I switch to all synthetics and is there a risk that I might damage something by switching now after 150,000 miles using regular oils? I have changed the fluids according to the manuals severe service ratings on time ever since I purchased the truck new.

Devon in Vandalia Missouri

Dear Devon,

You can switch all the fluids over to synthetics but do not expect a huge gain in mileage. If you have all conventional oils now and were to change everything in the drivetrain over, you may see a slight increase in the highway mileage, and you will help extend the life of any parts that are not already worn severely. The oil itself should not hurt your vehicle but you must stick with the factory approved type. On some older vehicles changing may result in leaks. Consult with your dealer to be sure. Synthetics don't break down as fast as conventional oils and they hold their viscosity more consistently which is the main boost for the mileage. Changing over to synthetics can be expensive so if you do it you may want to change one at a time when that service comes due.

Take care, The Motor Medics
