New job,
new retirement
account options

Changing jobs? Consider these 401(k) options:

- Leave the money in your previous employer's plan
- Move it to your new employer's plan
- Roll it over to an Individual Retirement Account (IRA)
- Cash out the account subject to early withdrawal penalties

We can talk through your financial goals and find the option that works best for you.

Ask the Motor Medics®

Automotive Advice from The Under the Hood® Show

Dear Motor Medics,

I have a 2015 Dodge grand Caravan and the power operated side door doesn't always work. Sometimes when you close the door it will almost move to the full closed position then it reverses and fully opens. If I try it several times it sometimes closes. I have been told by two dealerships that it needs a new ribbon cable and its hundreds of dollars. Is this common?

Margaret in Fargo North Dakota

Dear Margaret,

This is a common problem in many of the vans using a power sliding door system. They have to make a connection between the door and the body and many do it with a cable. The cable moves back and forth every time the door slides and with enough time it can be rubbed through or break one of the wires in the cable. If either of these things happens it can act just like yours is operating. Other issues like programming can be a factor and less expensive than a new cable so make sure that they give it a proper diagnosis and guarantee their work. A good thing to remember is the most expensive repair is always the one you don't need. Make sure that the shop doing the repairs has had experience with the system used on your vehicle. If it is a cable they are expensive to replace mostly due to the time involved for the labor which can take several hours of work.

Take care, the Motor Medics

Dear Motor Medics,

I listen to Under the Hood Here is Salida Colorado and I drive a Chevy S10 with a manual transmission. Recently the transmission has become hard to put into reverse and also first gear unless the engine is turned off. When I try to engage it the gears grind and if I force it I can get it to go eventually. Once it is in gear it seems to work ok. What can you tell me?

Kelly in Salida Colorado

Dear Kelly,

It sounds like the clutch is not completely disengaging. To smoothly engage without gear clash, the input shaft of the transmission needs to stop moving and this occurs when the clutch is pressed down. Many things can cause it to keep moving like a warped clutch disc or pressure plate or the pilot shaft dragging on the crankshaft but the most common item is worn clutch hydraulics. The vehicle will need to be properly diagnosed to verify which component is the cause before repairs. The one thing to note is that if that if it is being operated in this condition it can cause damage to occur to the transmission very quickly and increase repair costs. The grinding can cause gear wear internally and if the clutch is dragging due to a hydraulic problem then heat will be built up which can burn up clutch friction parts or cause warpage which will mean having to replace the clutch parts.

Take care, the Motor Medics

Coming in tomorrow's

Brandon Lutheran Church is gearing up for their second summer of free lunches for kids 18 years old and younger, and this summer, they're expanding the program to two days and two locations. Brandon City Council met Monday evening and writer Tom A. Savage will bring you details from their first meeting in June. Two local congregations are "rooting" themselves

even more by planting community gardens on their respective church grounds. Find out more about the stories behind the gardens. Borderline Butchering has added craft beer to their offerings. Learn more about the new addition to this rural Brandon business. Safety Town returns for a third summer. Learn more about the program that's

educating 5- and 6-year-olds on all things safety-related. In the opening round of the first-ever South Dakota High School League sanctioned girls' State softball tournament, the Lady Lynx were the tournament "spoilers." Seeded seventh, Brandon Valley knocked off No. 2 Harrisburg to advance to the state semifinals. Find out just how far the Lady Lynx took their game in the sport's season-ending finale. A trio of Lady Lynx student-athletes will continue to hone their dancing skills, as all three inked their futures at South Dakota State. Find out more about the dancers and the stories leading up to their next chapter. And as always, there's a whole lot more. So, if you find yourself asking, "I wonder what's going on ...?" It's time to subscribe to the *Brandon Valley Journal*! Give us a call at (605) 582-9999 to subscribe today so you, too, can be in the know.
