COMING IN SEPTEMBER

Ask the Motor Medics®
Automotive Advice from The Under the Hood® Show

Dear Motor Medics,

With gas prices constantly changing but always on the slow creep upwards overall I want to save as much fuel as possible. I have been researching kits to burn hydrogen in my car and other ways to increase my mileage with additives to the tank that are supposed to increase efficiency. Do you guys know which kit is the best one out there and how well they work? Is it something I can do myself at home? What about the additives to the tank?

Dustin in Elmira New York

Dear Dustin,

Keep researching, and you will find many people who have tried these things only to find they don't work as promised. Everyone wants better mileage, and they all want it cheaply. When the cost of fuel gets a sudden spike, you will see more of these kits on the market and offers of pills and additives claiming to be magic fixes for fuel mileage. If there was such a thing it's likely that the manufacturers would be making a good version of it to get there overall fuel ratings up. Not to say that someone won't come up with something that does the job at a price that makes it worthwhile but for now we have not seen anything. It's completely up to you to research these products and make a final decision but we very strongly recommend that you consult with your own local mechanic before making any purchase.

Take care, the Motor Medics

Dear Motor Medics,

I just got my first car from my dad, a 2003 Chevy Impala and I was at the gas station filling it up for the second time or so and the guy next to me said I was doing it wrong and was going to wreck my car. He said I was overfilling it and needed to stop when the pump clicks the first time. The problem is it clicks off when it's only half full and you must fill it really slowly or keep clicking it. This is the way my dad had to fill it for the past couple years. What is this guy talking about and why does it click off so soon?

Dave in Bennington Vermont

Dear Dave,

The guy is right. The tank is designed to shut off the pump by backing fuel up the filler tube when it's full. If you overfill the tank by forcing fuel into it after it shuts off, it will spill over into the emissions system canister damaging it. You and your dad may not have caused what is going on now. While overfilling can cause damage to the emissions system and result in the premature shut off, a failed tank vent valve can also cause this even without canister damage. Have the emissions system checked and if it is a valve, they can replace it so you can fill the tank faster but remember to stop when it clicks.

Take care, the Motor Medics

Coming in tomorrow's

BRANDON VALLEY Journal

This week's *Brandon Valley Journal* puts the spotlight on the new addition at Brandon Valley High School. We'll take you behind the doors and show you in both words and photos the features of the new space as Brandon Valley "Builds for the future."

We're also taking a "step back in time" to make note of the five-decade career of Roger Ballister. That's right, this Brandon man has worked for the same company for 50 years and he's not ready to put away his tools just yet.

Brandon recently implemented its eighth Tax Increment Financing (TIF), which is an economic development tool that municipalities utilize. Learn more about TIFs and why they benefit the communities they are used in.

A Brandon woman is president of the Sioux Empire Fairgrounds Board.

Find out the story behind Jo Hausman's willingness to volunteer in this capacity.

A BVHS senior with major offers to play football or wrestle, has decided on the sport he's chosen to play at the next level. Find out what led to Navarro Schunke's decision and the early offers that he's considering.

The annual Freshman Unity Day was deemed a success, as more than 100 senior volunteers shared their insight into high school with the more than 360 incoming freshmen.

And there's a whole lot more news, sports and features. So, if you find yourself asking, "I wonder what's going on ..." it's time to subscribe to the *Brandon Valley Journal*! Give us a call at (605) 582-9999 to subscribe today so you, too, can be in the know.

Looking for a big opportunity in a small town? We'll pay you to escape the hustle and bustle!

Golden West Position Listing

Golden West Telecommunications is hiring a full-time FIELD SERVICE TECHNICIAN I in Scotland, SD.

If you're tired of the hustle and bustle of city life and looking for a stable opportunity in a small but vibrant community, we've got the perfect job for you. The Field Service Technician I plays a key role in keeping customers in Scotland, South Dakota connected.

Centrally located between three of South Dakota's largest cities, Scotland offers peace and quiet, with plenty of opportunities for recreation. You'll enjoy traditional values and community pride while providing an important service — one with plenty of opportunities for training and advancement. It's not just a job, it's a career! And with a generous relocation package, we'll even help pay for your move.

Golden West is a century-old company that owes its success to hardworking employees. The Field Service Technician I is responsible for installing and repairing broadband, voice, and cable TV services for residential and business customers. In this role, you'll provide remote hands assistance for other groups in the company and additional duties as required.

We're looking for a high school graduate, GED, or equivalent. Associate's degree in Telecommunications or Networking preferred, or an equivalent combination of education and experience. You must live in — or be willing to relocate to — the Golden West Exchange. Relocation assistance is available to an otherwise qualified applicant.

Golden West offers competitive pay and unmatched benefits. For a full listing of job duties and qualifications and to apply, visit our website at goldenwest.com/careers. Background check and drug screen required. Position is open until filled. Willing to train the right candidate.
