Ask the Motor Medics®
Automotive Advice from The Under the Hood® Show

Dear Motor Medics,
There are so many new things on cars today. How do you keep up with them all? I just bought a new car to me; a 2011 Ford Focus and it has a ton of new stuff on it that I have never heard of, being that I just got out of a much older vehicle. This car has no gas cap on it. I mean it's not supposed to, but I have a message on the dash that says "Check gas cap" so now what?

Seth in Vandalia Missouri

Dear Seth,
Ok Seth, now were on question overload, but we can handle it. 1st, we don't know how we keep up with it all, we just do. That's our number one asked question on our radio show Under The Hood. We have great memories and see a lot of vehicles in our shop which helps. As for the new features, they are coming out of the woodwork for sure. Your car is one of those with the new no fuel cap feature. At least you can't lose the fuel cap. The filler tube now just has a valve and spring to seal the filler neck and if it gets dirty and damaged it can trip the light you have on now. It is very important to keep the area clean, we use a damp cloth, not soaking wet, to clean the area on a regular basis. Good luck with the new car.

Take care, the Motor Medics

Dear Motor Medics,
I have a question about your radio show. You have helped me with car repairs on four different occasions and I was able to fix it myself 3 times and saved money and the 4th time you were talking about a recall I didn't even know existed and I was able to have my problem at no charge at my local dealership. I want to know how you know so much about cars and how you guys started doing the show and this column.

Mark in Inwood Iowa

Dear Mark,
We're happy to help and it gives us great pleasure to know we are helping others save money and keep their automotive stress levels down. Mark, we work on cars every day in our own repair shop doing everything you hear on the show and that is a great learning center for us. Russ also has a crazy memory that never lets anything go so he keeps all that knowledge and passes it on to our listeners. Neither Russ nor Shannon uses a computer to answer the questions on the air. We started the show back in 1990 as a half-hour show, never dreaming, we would have a worldwide audience 33 years later. At one point we were answering over 300 emails a day with many being similar, so we started this column to help multiple folks at once with one answer. We are blessed to have such great folks listening.

Take care, the Motor Medics
