Ask the Motor Medics®

Automotive Advice from The Under the Hood® Show

Dear Motor Medics,

I'm having trouble listening to your car show. It's not so much you guys but rather my car. If I listen at home or in my friend's car it's loud and clear but I just can't seem to get good reception on my vehicle radio. The truck has 160,000 miles and is a 03 Chevy. I started getting poor reception a few years ago and it has become worse. The FM reception is poor and the AM is very poor. It has kind of a popping sound that changes speed of pops as the engine changes speed. Where would I begin to fix this problem myself?

Scott in Clayton New Mexico.

Dear Scott,

It could be many things that won't be too hard to fix if you have some basic mechanical skills. It could also be the entire radio but let's start with checking the cheaper stuff first. A radio is only as good as its antenna so start there. Check the mast and the mounting. The antenna should be tight where it mounts to the vehicle. Check the cable as well. The cable needs to have no corrosion at any connector joint from the antenna to the radio. If all looks good try a test antenna that is not mounted to the vehicle. If it fixes the problem it is likely the antenna. If not then it is time to have some diagnostics done at the local radio repair shop.

Take care, the Motor Medics

Dear Motor Medics,

I don't have any jumper cables in my car at this time and would like to start carrying some. You would think it would be a simple task, just going to the store and picking out a nice set but when I did I got so confused that I had to write. They have big ones and small ones and ones that go in the lighter socket. They have jumper boxes you recharge. Where do I start? Can you help me with the different kinds and what might be better for me? I have not needed to jump my vehicle ever but I park in a ramp at work and every week it seems like one of my friends needs a jump and I'm just a helping kind of person.

Darryl in Martinsville Virginia.

Dear Darryl,

There are a lot of choices yes, but what you choose will depend on personal preference and also how you will be using any of the items you mentioned. Heavy gauge jumper cables with large ends are good for jumping a car quickly and often. A rechargeable jump pack also works well for this. The difference is you need to get close with your vehicle to connect cables while the pack is self-contained. Very small gauge cables need more time to charge before cranking and the one for the lighter to lighter socket can take a very long time and not provide the needed cranking amperage.

Take care, the Motor Medics

FACES BEHIND The Lynx Way

TEACHER of the Week

Inspiration Elementary is proud to recognize **Mrs. Halvorson**, our dedicated English Learner teacher, for the exceptional relationships she builds with students and families. Her warm and welcoming approach ensures that every EL student feels valued and supported. In addition to her work with students, Mrs. Halvorson consistently collaborates with classroom teachers, offering guidance and resources to create successful and inclusive learning environments. Her commitment, compassion, and expertise make a meaningful and lasting impact on our entire school community.

- Tanya Palmer, Inspiration Elementary Principal

What is your favorite school lunch?
Walking Tacos

Why do you love teaching?

I love teaching because I get to work with students who are making connections between their home language and English. Some students come to us with very little English, and their progress throughout the year is absolutely amazing. Our English learners inspire me to be a better teacher and person. They teach me something new everyday! I also love the teamwork aspect of teaching. The staff I am lucky enough to work with are some of the most compassionate and dedicated people I have ever met. We all are here for the kids and want them to succeed.

How long have you been with the district?
This is my 5th year with BVSD.

What's your favorite past time?

My favorite past times are traveling, hiking, and spending time with family.

What was your favorite subject in school and why?

My favorite subject in school was social studies. I love learning about history, geography, and other cultures around the world.

STUDENT of the Week

It is my pleasure to recognize **Lynkon Grimmus** as Student of the Week at Inspiration Elementary!

She works very hard in school and always tries her best. She is kind and patient with everyone around her, and a good friend to others. As a learner, she takes on challenges, always has new ideas to add, and is enthusiastic.

Lynkon is very responsible and loves to help others in the classroom. She is a positive role model in our school community, and genuinely loves learning. Her positive attitude is a bright spot in everyone's day.

- Tanya Palmer, Inspiration Elementary Principal

What is your favorite school lunch?
Potstickers

What grade are you in?
4th Grade

What does the Lynx Way mean to you?

Following what you are told to do. It is the expectation for how we should act.

What do you want to be when you grow up?
